Anmerkungen von Lucy Cooke zu »Die erstaunliche Wahrheit über Tiere«

Meine Lektüreliste ist leider viel zu umfassend, um sie vollständig hier abzubilden. Stattdessen habe ich mich bemüht, die Quellen aller Zitate und ein Literaturverzeichnis der wichtigsten Bücher und akademischen Artikel zusammenzufassen. Die Experteninterviews habe ich während meiner Feldarbeit oder beim Schreiben des Buches geführt.

[Die Nummern beziehen sich auf die Fußnoten im Text, Sternchen auf weitere Zitate und Informationen, die durch die entsprechende Textstelle definiert werden.]
